Challenge 5

1. In sym-archivedata.js, add a data update function and name it dataUpdate, pass it newdata as a parameter

2. Change DataShape of the symbol to handle time series data

3. Display Label and UOM parameters inside <h3> tags

4. Display all the historical data (timestamps and values) inside <div> tags.

Extra Credit

Add a custom icon for your symbol (Hint: use the extensibility documentation)
